SEVERAL TEACHERS ELECTED

School Board Meets In Adjourned Session And Do Lot Of Work.

FIX TAX LEVY FOR YEAR

Fourteen Mills, One Less Than Last Year, Is Decided Upon.

The school board met last night in regular adjourned session and besides other business elected thirty-seven of the forty some teachers needed for the coming term. The tax levy for the year 1908 was fixed at 14 mills, ten for school and four for building. This will make the levy this year just one mill less than last when it was fifteen mills, nine for school and six for building. The treasurer was elected last night, Mr. Ed. Hastinge, of the Savings and Trust company being chosen. His bond was accepted. A few bills were paid.

From three applications for High School teacher, B. B. Smith, last year's instructor, was elected. The same salary, $85 a month will be paid. A large number of applications from last year's teachers were read as well as many new ones seeking places in the local schools. Five applications of the former teachers were rejected for various reasons. Those accepted were Misses Bernette McDonough, Jean Whitehead, Mary Thompson, Mary Blankenbuehler, Ida Hugg, Nevada Iams, Ida Gayman, Edith Woodhall, Mary Lewis, Della Martin, Katherine Patterson, Della Swan, Alice Woodward, Clara Cooper, Judith Collins, Ella Greenwood, Nellie Steele, Mrs. Jessie Fonner, Miss Martha Taggart, Iva Beazel, Nellie Hopkins and Elizabeth Elliott. The new ones elected to places in the schools were Misses Harriet Jolliffe and Mary McGee, Charleroi; Guiselda Patterson and Jean Brown, Pittsburg; Mina Houseman, Belle Vernon; Jean Hawthorne, California; Alta Montgomery, Sparta; Clara Moore, Millsboro; Bertha Briese, Morris Township; Grace Iams, Amity; Elizabeth McGee, Harrisville. Alice Staib, Monongahela; Mrs. Dolly Jeffries Brownville.

The matter of electing a music teacher was not taken up. The salaries of the teachers and grade assignment to teach will be decided upon later. A meeting will be held next Tuesday when it is thought the business will be finished for the month.

PROGRESS IN CATE MURDER TRIAL

The commonwealth yesterday completed the presentation of its case in chief against William L. Cate, the Belle Vernon man charged with the murder of Policeman Thomas Guess. There were few features to the evidence adduced Wednesday, probably the only departure from the first trial being in the calling of former Judge E. H. Reppert to the stand to testify from the notes made at the time as to the evidence given by John Maloney.

Greensburg is elated over the new completion of a new turnpike from that place to Madison.

BIG OPEN HEARTH MILLS TO RESUME IN FULL JULY 1

Monessen Plant Will Employ Large Force Of Men.

FINE THING FOR TOWN

Developments in the iron and steel industry yesterday indicated that conditions have materially improved along that line within the past few weeks.

First came the announcement that the $4,000,000 plant of the Pittsburg Steel Company at Monesesn would be placed in full operation on July 1, giving employment to a large number of men. This plant was to have been completed last fall, but the structural material was not delivered in time.

Following this it was reported the United States Steel Corporation had closed a contract with the Pittsburg Steel company to furnish the latter with 150,000 tons of basic pig iron, to be delivered between July 1 and December 31, of this year. Officials of the former refuse to confirm or deny the report, but independent pig iron interests confirmed the rumor and intimated the deal was closed at an "advantageous price." This means the combine has entered the pig iron field and is cutting prices.

The third surprise came in the announcement by Judge E. H. Gary, chairman of the board of the steel corporation, of a cut in the prices of steel bars, which are used by all manufacturers of agricultural machinery.

The Pittsburg Steel company had a five-year contract with the steel corporation to furnish 100,000 tons of billets yearly. On July 1, last, notice was given that on July 1, of this year, the contract would be abrogated, as the Monessen plant would be in operation by that time and that the company would make its own billets.

It has been known for some time that about 150,000 tons of pig iron would be required by the company for the first six months the new plant is in operation. Independent interests going after the contract, now less than 30 days off, have been informed that the corporation has already closed a deal for that amount.

This is taken to mean that the corporation has decided to operate at least one of its furnaces at Clairton, less than 12 miles from the new plant at Monessen, and will thus be able to cut out the 90 cents per ton which has been charged from the valley furnaces of the independents. No information has been given out as to the price to be paid for the pig iron.

REPORT OF JUVENILE COURT OFFICER

The following is the report of the officers of the juvenile court for the month of May: Number of children under the care of the court at last report, 240; new cases, 7; closed cases, 2; total number under care June 1, 245; court hearings, 3; cases in court, 6; cases out of court, 3; sent home on probation, 1; placed in homes, 3; placed in institutions, 8; calls, 87; reports, 79; cared for in detention room, 10; salary of officer, $40; expenses, $5.14.

A man with a name like a breakfast food has been arrested over in Westmoreland county for annoying young girls. A charge of bird shot is an excellent preventive of such cases.

OPERATIONS STARTED IN MANY MINES

Pigeon Creek Valley Is Hive Of Industries, With Large Number At Work.

INDUSTRIES ALONG RIVER

At Hazel Kirk, Dunkirk And Acme Fifteen Hundred Men to Be Employed.

Good news comes from the Pigeon creek valley. All the mines from Dunkirk to Acme resumed in full this morning, after protracted shutdowns, giving employment to almost fifteen hundred men. Orders were issued yesterday by the officials of the Pittsburg and Westmoreland Coal company to begin running coal, and today the various superintendents announced everything in readiness to resume.

The mines affected by this order are Dunkirk, which employs about three hundred men; Hazel Kirk No. 1 which employs 350 men, and No. 3, which employs 250 men, both mines being located at Hazel Kirk; Hazel Kirk No. 2, at Van Voorhis, which emloys 250 men., and Acme, near Bentleyville, which employs 250 men.

Of these mines Hazel Kirk No. 3 shutdown last November, and No. 2 has not worked since last January. Mine No. 1 has produced some coal during the winter and spring, but only a few men have been at work. Dunkirk has been idle for some time, while at Acme the production has been at a low ebb.

The resumption of these mines will mean a renewal of the activity in the Pigeon creek valley which made it such an important factor in the industrial affairs of its district, and which promises to continue all through the summer.

Schoenberger Mines, near Monongahela, resumed this morning with a working force of 300 men.

Jones and Laughlin who own Vesta Mine No. 4 are installing an immense haulage engine. The Pittsburg Coal company are adding a large power plant to their system above California.

SABBATH SCHOOL CONVENTION AT MONONGAHELA

Arrangements are being made for the thirteenth annual convention of the Washington county Sabbath school convention, to be held in the Methodist Episcopal church, Monongahela, Thursday and Friday, June 11 and 12. Nothing is being left undone which will make the convention one of the best ever held by the association. The speakers will be of the finest and the music will be of a better grade than at any previous convention. A large number of Sunday school workers from Charleroi will attend.

The lectures will be given on Thursday evening by Rev. J. G. Slater, of Pittsburg, general secretary of the State Association; and Rev. C. L. McKee of Washington. The latter's talk will be illustrated by lantern views. His subject will be "The Land and the Book," portraying the land of Palestine. Friday evening W. G. Landis of Philadelphia and Charles E. Newlin of Indianapolis, Ind., will speak, the former on "Pleasing Personality" and the latter on "The Unconstitutionality of Legalizing Wrong." Mr. Newlin is a platform lecturer of much note and his lecture will prove of much interest to all who hear him.

The music will be in charge of Prof. R. M. Kay of Charleroi, who has gathered a choir of singers from the valley for the special purpose. Besides a choir of older voices a children's choir will be formed.

HUMPHRIES HUMBLED CLARKSBURG

Charleroi Makes It Three out Of Four From Drummers.

FOUR RUNS IN EIGHTH

Inning--Humphries Hit Homer With One Man On.

Charleroi took the lead right at the start of yesterdays contest and the "Drummer" men were never able to overtake it, altough they managed to score five times on eight hits, three errors and two walks. Bert Humphries was working in good form and whenevr things looked dangerous he would tighten up and retire the side in one two three order. Charleroi got to Miller who was working for Clarksburg in several different innings, coupling in the eighth for three singles and a homer.

In the first inning Houser looked them over and walked to the initial corner. Tom Cosgrove bumped it and was safe when Miller made a mess in fielding. Elliott sent both men up a station with a sacrifice and when Dailey landed on the horse hide for a two sacker both men scampered over the gum. In the next inning another was added. Here Humphries walked and Houser sacrificed. Miller didn't like the looks of Cosgrove and sent him on his way with four wide ones. Elliot made the second one down by flying to middle. Dailey received the glad hand when he walked up and as a return compliment put one where they wasn't and Humphries scored. At this stage Miller steadied down and allowed but one more hit until the seventh. Cosgrove got the bingle

VERDICTS GIVEN BY JURIES IN COURT TRIALS

The jury at Washington yesterday awarded George M. Rathmell and William T. Dougherty $805 damages for property appropriated by the Pennsylvania, Monongahela and Southern Railroad company as right of way.

The plaintiffs are the owners of two lots on what is now Mill street, connecting Fredricktown and Millsboro, which are about one mile apart. The railroad company took a strip 50 feet wide through these lots. Viewers were afterward appointed, but the award was not acceptable. The property is claimed to be very valuable on account of its location.

The next case taken up was that of the school district of East Bethlehem township against the same defendant. The facts on which the action in this case is based are about the same as in the preceding case. The trial had only progressed a short way when court adjourned yesterday.

A verdict for $115 in favor of the plaintiff was returned by the jury in the afternoon in the case of J. I. Jones. Both the prosecutor and defendant are farmers, residing in the river district near Monongahela. The action was one to recover damages based on an alleged breach of warranty in the sale of some dairy cows by the defendant to the plaintiff. The cows were alleged and guaranteed to be fresh and in good condition.

The case of the Monongahela City Trust company, receiver for the Robison Machine company, against the Pittsburg-Westmoreland Coal company, is now on trial before Judge Taylor. The action is one to recover money due on goods purchased by the coal company before the machine company went into the hands of a receiver.

J. Boyd Crumrine, attorney for the plaintiff in the suit of the Pittsburg Armature works against Spencer Bros. which was tried in common pleas last week, has filed a motion for a new trial.

In the proceedings of Stockdale borough against the Pennsylvania Railroad company, exceptions to the masters' report have been filed. A grade crossing was petitioned for, but the master found it should not be granted. The master also found that the costs should be paid by petitioners.

PAWVA LEAGUE HAD MEETING LAST NIGHT

Decide That Connellsville--Clarksburg Game Be Played Over.

IMPORTANT BUSINESS

Connellsville baseball magnates threatened to leave the Penna, and W. Va. league after an unanimous decision had been made by the directors of the league to throw out the disputed game with Fairmont at Mud Island June 1, and to play at some future time.

Each team gave their side of the argument and left the room while the directors of the Charleroi, Uniontown and Clarksburg teams settled the dispute. After going over the stories the directors on three ballots decided unanimously that it should be thrown out. The game in question was played last Monday at Connellsville with Andrews, Fairmont man, and Blanchard, a Connellsville player, umpiring. With the score 2-1 in Fairmont's favor Blanchard made two decisions which Mack claimed were bad and a general wrangle ensued. In the midst of the argument, Andrews called the game on account of darkness, and Blanchard forfeited the game to Connellsville, 9-0.

At the suggestion of President James Groninger, the umpire's salary was raised from $100 to $125 per month.

The salary limit was touched lightly, but will still remain at the old mark, and the teams are now required to be within the $1,200 mark. From statements made all are observing the salary law excepting Uniontown, Clarksburg and Fairmont, who will have to cut their pay roll at once.

Meeting Tonight.

The regular semi-monthly meeting of Charleroi Court No. 41. T. B. H. will be held tonight in their hall on Fallowfield avenue between Third and Fourth street. The officers request that all members attend. State Deputy T. H. Russell is expected to be present to take in charge the initiation of a large class of candidates. The Silent Entertainment committee who have in charge the entertainment of our members report at their will without notice, consequently our members who would not miss a rare treat must not fail to attend each and every meeting in order that they may be present when there is something doing.

TRYING TO PUT THROUGH BIG DEAL

J. E. Perkins is in Pittsburg today trying to put through a deal whereby W. J. Black and Co., will become the owners of two mines in Virginia owned by Charleroi capitalists. One is a soapstone mine located in Aldermal County and the other mica mine in Frederick Co. Virginia.

Farmers throughout the county are making systematic work on bugs which destroy fruit.

FORGER IS ARRESTED IN CHARLEROI

California Young Man who Signed Brother's Name To Checks, Apprehended.

INFORMATION BY CASHIER

Held Under Bond Of $500 For Appearance In Court.

Yesterday afternoon Harry G. Paxton, a young man formerly of California, but who for a few weeks has been stopping at the Wilbur Hotel, Charleroi, was arrested on a charge of forgery by Chief of Police Albright and Officer Higgins, on McKean avenue, after he had left the ball park where he witnessed the game. Paxton is charged with having used the name of his brother, Dr C. P. Paxton, of California in checks on the First National Bank, of that place. At a hearing last evening before Squire Hornbake at California he was held for court under $500 bond.

There are eight checks said to have been forged, aggregating a total amount of $234. The last, dated May 29 was for the largest single amount, thirty dollars. The first was written on May 1, but for a small sum. W. S. Nicodemus, cashier of the First National Bank of California, who made information, learned of Paxton's method of gaining money, yesterday morning and sent a message to Detective J. H. Kelly, of the Pinkerton Agency, who is employed by the American Banker's association. Mr. Kelly came to Charleroi about noon yesterday and succeeded in a short time in learning Paxton's whereabouts. He notified the local officers, but kept an eye on the man until arrested.

Paxton is a man between 25 and 30 years of age and married, having a little child. He has been employed with a surveying corps at Monessen for sometime, staying in Charleroi.

CLOSE OF BAPTIST CONVENTION YESTERDAY

New Kensington, Pa., June 4.—Yesterday's program brought to a close the two days' convention of the Pittsburg Baptist Association, in the First church here. Rev. Dr. A. J. Frey of Rochester opened the day's session. Homestead captured the next convention, which will be held June 10 and 11, 1909.

The following pastors of the association were introduced by the moderators yesterday afternoon: A. B. Conrad, Jeannette; Rev. D. P. French, Coraopolis; Rev. Wililam J. McDouall, Oakmont; Rev. Thomas Griffith, Duquesne; Rev. W. S. Carson, Derry; Rev. U. G. Joyce, Butler, Rev. John A. Cherney, Monessen.

John Callahan, aged 17, of Homestead, was drowned on Monday.

Cumberland, Maryland, still retains the favor of eloping parties.

In spite of numerous deaths and equally numerous warnings in the public press, the people continue to sit and sleep upon the railroad tracks, and then be killed.

Train service between Zollarsville and Monongahela will begin July 1.

The Burden of Proof

The most convincing fact that a man is succeeding financially is attested by the record of his bank book—that he is making regular weekly or monthly deposits to his account in the First National Bank of Charleroi. It is also the best evidence of thrift and good management. Your account is cordially invited.

[illegible] account of rhetoric, no amount [illegible] of sophistry can alter that fact for one [illegible]. If the South will persist in [illegible] disfranchising native American citizens [illegible] for no other reason than because [illegible] of their color, than it should take the consequences manfully. The colored men are Americans and from Crispus Attuck in 1778 down to Mingo Sanders in 1898 the negroes have been on every battlefield from Montreal to Manila to help "make and preserve us a Nation"

The Democrats did not want the publicity bill, nor will they pass one one if they should be given the chance to do so, unless they think they can make political capital out of it. It has not escaped public attention that the only States having laws providing for the publication of election expenses are Republican States whic were passed by Republican Legislatures and signed by Republican Governors and enforced by Republican officials.

It's To Laugh.

The Observer is resorting to a trick that was decriped with age when Cadmus was struggling with hireogylphics That is, it is writing letters to itself, signed "Old Subscriber," etc. We confidently expect "Constant Reader," "Vox Populi," and the other figments of editorial hallucinations to erupt on "Twenty-two Drug Stores—Their Uplifting Tendencies," Then "Junius" may descant on "The Trolley—Thirst Studios' Scientific Scheme." There are possibilities in self-writing systems that would make the Bridgewater Treatise on the Brain read like a language spasm of Laura Jean Libbey.

Prehistoric

The authorities of Washington borough publish the financial statement on telegraph poles. That was the way Noah advertised the flood, so disastrous to all who were too busy to read the notice. It may be that way with the tax-payers unless pre-historic methods are discarded.

What?

Will some person please come forward and show what claim the Washington Observer has upon the Republican party.

In the whole list of our Democratic exchanges there is not one that uses the scurrilous and slanderous language towards the Republican party and its nominees that is used habitually by the Observer.

Swimming Pool

The numerous cases of drowing in the Monongahela river during the past ten days emphasizes the necessity of a swimming pool where those who love to swim can do so without danger.

NIGHT WATCHMAN HAS LITTLE SAY

Editor Mail:

Dear Sir:—Since the robbery at Murdock and Davidson's last Sunday morning there has been considerable comment on my ability as night watchman.

I wish to say that the business men who pay me for my service receive protection from me but those who laugh at me and scoff at my work are the ones who get but little if any of my time and attention and as a rule, judging from the past, they are the ones who suffer. About three o'clock on Sunday morning I saw a suspicious character loafing in front of the store where the robbery was committed but not being much interested in the place I said nothing to him and I now believe this man was on the lookout while the robbery was being committed. Had it been at a place where I was interested and getting paid for my service I would have inquired his business and had him to "move on" if his explanation was not satisfactory. I am doing my best to protect the merchants who pay me for and appreciate my work.

Yours truly

Harry Osborne,

Night watchman.

HUMPHRIES HUMBLED CLARKSBURG

(Continued from first page)

when he led off and took second on Elliot's sacrifice. When Dailey went out from short to first Cosgrove took third and scored on an error by Conway. The inning that broke the Clarkeburg boys hearts was the eighth. Nally singled and Willig and May skied to the outfied, then Bert Humphries came along and pounded one to the fence for the circut. Houser then took an excursion and Cosgrove singled. The corners were all occupied when Elliott got soaked. Dailey got his third hit and scored Houser and Cosgrove. Elliott tried to go to third but was cut off by a throw from J. Dawson to Miller to McAvoy.

Clarksburg didn't score until the third when a walk a stolen base and a single by McAvoy, gave them one. Their next one came in fourth on an error by short, to infield out and a single by McAlease. In the seventh McAlease singled and F. Dawson sent him over with a three sacker. It loked like a batting rally for the Drummers in the ninth when Drum led off with a single McAlease walked and Miller hit for two bases. Right there Humphries settled down and retired the side in order. Score:

Street Lanterns That Keep Them Vigilant at Night.

"When I visited Mexico," said an artist, "I found innumerable things of interest, but that which gained my notice particularly was the police system. In the City of Mexico the police at night are stationed at short intervals apart in the street. Each policeman has a lantern, which is placed on a stand in the center of the street It is his duty to remain in easy striking distance of this lantern at all times, so that he will be on hand in case of an emergency.

"Any person who is able to reach the lamp and lift it from its hook before the policeman interferes is entitled to a reward of $500. Any policeman who loses his lantern is subject to instant and dishonorable dismissal This is to insure constant vigilance on their part and to require their presence at a certain point at all times. At first I regarded the thing as a joke, and I tried to get possession of the police lantern. But then I found that I was greatly mistaken. Not once, although I exercised extreme caution, was I quick enough for the policeman on watch.

"The City of Mexico is one of the best policed communities in the world. Policemen are always on hand when one requires them, and it is virtually impossible for desperadoes to operate in the open."—New York Telegram.

Mac Jimeson is great, Juvenile Minstrel, Star tonight. 251t

Among the Exchanges

The value of a "cleaning up" day is tersely told by the McKeesport Times:

The Yough water front certainly looks much better since the city has made some improvements there. Most of the rubbish that disfigured it last summer, and which The Evening Times then urged should be removed, has disappeared, and the ground looks clean and respectable, and a fit place for the people to visit. The walks laid by the city between Fifth and Sixth avenues have also added to its attractiveness, and it is beginning to take on the appearance of a park. The river front is capable of being converted into a very pretty little park and that is what ought to be done with it. As a pleasure spot it will be an advantage to the city instead of the eyesore it has hitherto been.

The Homestead Daily Messenger talks sanely and sensibly when it says:

The June bride will be here in a very few days and with her will come dreams of loveliness upon the part of youth and cogitation of what the bride's capabilities are upon the part of the aged. There are few June brides, or any kind of a bride for that matter, who walks out of an ordinary home into a palace. Such occasions are the exception to the rule. Until every bride can go from an ordinary American home into one where liveried servant awaits her beck and call each should be equipped for the duties of a wife. Each should know how to keep house, to make and mend and bake.

Dunlevy.

The social held Monday night for the benefit of the Dunlevy baseball team was successful they netting over $30. They played their second game Tuesday against a team composed of the combined baseball talent of Speers and Twilight, the score being 6 to 3 in their favor. Copenhaver pitched for the home team and Sutherland, the left-hand twirler from Twilight, for the visitors.

A baby girl arrived on Tuesday at the home of Ralph Lyrn, and now Ralph makes his horses travel at a 2.49 gait while his face is adorned with a broad, two-acre smile.

Thomas Robison, who is employed on one of the machines in Vesta mine No. 1, was severely injured Tuesday morning by a fall of slate. Two ribs were broken and his face was badly cut.

TEXAS

Our Next Excursion Leaves Pittsburg in the Evening of June 15. 1908.

The Panhandle of Texas offers the very best inducements of the entire United States for the man who wishes to locate on a good farm as well as for the investor.

This land is unusually fertile, it lies nice and level, no stumps or underbrush to clear up but ready to plow at once, on this land you can raise larger crops of every kind with less labor than on farm land in Pennsylvania or West Virginia.

There is an abundance of rainfall during the growing season, and they have the healthiest and most pleasant climate during the entire year of any place in the United States. Plenty of absolutely fresh water.

We are selling this land for $10 to $30 per acre, according to distance from railroads and towns, good terms, you can buy as many acres as you want and make as much or more than the cost of your land in the first year.

Send for our free illustrated booklet; you should investigate this proposition at once by going with us on our next excursion; now is your chance before the land is all sold, as thousands of Northern people have located there, and the prices of land are sure to more than double in the near future, we will pay your expense of making the trip if we have misrepresented the land.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make if a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

Miss Margaret Alcott has resigned her position at the Saxon Cafe.

H. P. Jacobs and Mr. Patterson left today for near Legenier on a few days trout fishing trip.

Starting Early.

Wangles was married recently, and there was a regular hail of rice, confetti and old shoes for good luck as he got into the cab. Moreover, on turning round he was struck above the eye by a friendly shoe with rather a heavy heel.

As the cab immediately drove away no notice was taken of the accident, and, despite the large handkerchief tied by his sobbing bride over his injured optic, the blood still flowed down Wangles' face.

When they arrived at their destination the newly created Benedict went out to a doctor to get the bleeding stopped.

"How did you come by this, my man?"

"Well, you see, doctor—aw—I got married this morning, and"— commenced Wangles, when the doctor broke in:

"What! Has she started already?"—London Answers.

All Pretty.

A rash paper announced for its columns a forthcoming story, entitled "The Prettiest Girl In the Town."

A hundred young ladies immediately sent post cards warning the editor not to use their real names.—London Globe.

Brevity.

"Too many words are wearisome," said Kwoter. "Brevity is the soul of wit."

"Not always," replied the observer; "but, in any event, it is always commendable."—Philadelphia Press.

Twenty and Twenty-two.

What is the difference between twice ten and twice eleven? None whatever. Don't you see that twice ten makes twenty and twice eleven makes twenty-two (too)?

The strongest things are in danger from the weakest.—Rossetti.

Six greatest end men in the minstrel business. Masters Ailes, Jimeson, Schempp, Nutt, C. Jimeson, Michener. Star theatre tonight. 255t1

More coal and coke trains over the local division is an indication that these points are looking up, and both are coming out in increased quantities as the wheel of industry take on a swifter movement.

A dog, thought to have the hydrophobia, bit a lad at McKeesport Tuesday.

D. H. Pearsall who it is alleged embezzled money of the Moorehead coal company, has been indicted at Uniontown.

Connellsville is clamoring for a subdivision of her large polling precincts.

There were 122 prisoners in the Connellsville bastile during May.

The Monongahela Valley Epworth league will hold its forty-ninth quarterly rally Thursday evening, June. 4 at Wilmerding Methodist church, corner Westinghouse and Clara street, Wilmerding.

Great mystery surrounds the shooting of John Mack at Braddock last Sunday.

All persons are forbidden to bathe in the river at Monongahela without a bathing suit.

The sum of $75 was given by the theatres at Monongahela towards paying expenses Memorial Day.

Nothing but union labor will be employed on the new high school building at New Castle.

The supervisors of Lawrence County are threatened with indictment for negligence in constructing highways.

The Women's League, terms the New Castle High School building "a disgrace."

Farmers generally say that little or no damage was done to fruit from frosts this spring.

Postmaster Sheats, of Braddock, has had his salary increased to $3,100 per year.

Monongahela desires a city flag. What's the matter with "Old Glory?"

Edgar Reed has been elected principal of Scottdale schools for three years.

There are 1,165 cases docketed on the Fayette county trial list.

E. S. Eby has returned to Scottdale from the Phillipines where he has been for the past eight years.

A certain bulding in Uniontown has been found to be on fire a dozen times in the last few weeks.

There were over fourteen million tons of coal mined in Washington county last year.

Connellsville has a clergyman as president of the borough councils and another president of the school board.

Irwin Hall one of the oldest residents of Jefferson township died Tuesday aged 82 years.

J. Denny O'Neill, of McKeesport, has issued invitations for his favorite fourth annual outing for school children. Five thousand children are expected to be present.

Wile at work on a coke drawing machine at the coke plant at Lemont No. 2 yesterday, Joseph Solak a young foreigner only 22 years old, was almost instantly killed when his hand accidentally came in contact with a live trolley wire which ran above his head.

A man was arrested at New Salem for hoeing his garden on Sunday. Old Salem was where the witches were burned.

Catcher Wahoo Weds.

A dispatch from Canton, Ohio, announces the marriage at that city of Mrs. Ethel Rankin, of New York, and Catcher Charles Guyon, better known as Wahoo, playing with the Canton team in the O. and P. league, who formerly caught for Washington in the P. O. M. league. The wedding occurred Tuesday evening. Both are very well known. Mrs. Guyon has made her home in Washington for several months, being employed as head milliner with the A. B. Caldwell company establishment.

Greensburg has a league called the Twilight that plays ball after supper.

Congressional Bell Signals.

On the floor of the house the doorkeeper has his desk, and it is here that the bells are struck that give notice of the needs of congress. One bell calls for tellers when the house is in committee of the whole; two bells indicate a call for yeas and nays; three declare a recess; with four bells the red light over the door goes out; five bells mean a "call of the house," under which the sergeant at arms is supposed to summarily arrest any member on sight and bring him in, whether on foot or horseback. Any member who is not present at a call of the house is subjected to a severe reprimand. Looking down the corridor, the going out of the red light gives the curious suggestion of the tail end of a passenger train dashing through a tunnel. While the red light burns bright and clear it means that congress is under way, but when the light winks and goes out then the visitors understand that the wheels of legislation have ceased to revolve.—National Magazine.

Countermanded.

A very devout clergyman had just married a couple and, as was his custom, offered a fervent prayer, invoking the divine blessing upon them. As they seemed to be worthy folk and not overburdened with this world's goods, he prayed, among other things, for their material prosperity and besought the Lord to greatly increase the man's business, laying much stress on this point.

In telling the story to his wife afterward the clergyman said that as he wrote down the occupation he whispered:

"Lord, you needn't answer that prayer." Philadelphia Ledger.

Artificial Limbs.

"A manufacturer or dealer in artificial limbs who wears a cork arm or leg himself is much better equipped for business than his competitors who are sound," said a man who uses a cork leg. "In fact, it has become a sort of unwritten law among us to patronize such men when possible. Sentimental reasons may have something to do with the case, but I guess the chief reason is that we consider that if a man can make a limb for himself that fits like the paper on the wall he can make it for others. Manufacturers of artificial limbs know this, and frequently you will find an advertisement like this: 'The So-and-so artificial leg is built by a man who is wearing one and who knows from experience what you want for comfort.' That is a strong argument for it's true. Going to get an artificial limb that just fits. Persons who have trouble getting shoes that are just right are in great luck compared to us."—New York Sun.

An Admiral's Stories.

One of the English admirals has a choice collection of stories of the expense of laymen placed in office at the admiralty as a consequence of a turn of the political wheel. Of one lord of the admiralty he told a delighted house of commons how, receiving a report of disaster to a ship couched in technical phrase, he wrote a reply remonstrating with the officer for his use of bad language. Another civilian lord, looking over a chart and observing that one of his majesty's ships, homeward bound, passed within a space of two inches on the chart an island where castaway sailors were sheltering, wanted to know why it could not call and relieve them. The admiral explained that the two inches on the chart meant a distance at sea of 4,000 miles.—London Strand Magazine.

JUNE ON THE GREAT LAKES

Restful, delightful, interesting and instructive, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip.

For comfort the fine passenger steamships of the Anchor Line have no superiors. As well-appointed as the palatial ocean greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sight of the lakes, and the scenery which frames them.

The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great lock at the Soo, and the passage of the Portage Entry, lake and canal, across the upper end of Michigan are novel and interesting features.

The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days' journey. Leaving Buffalo, the steamships Juniata and Tionesta, make stops at Erie, Cleveland, Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth.

The 1908 season opens on June 16, when the Steamer Tionesta will make her first sailing from Buffalo.

The Anchor Line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America."

An illustrated folder, giving sailing dates of steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back. SEVERAL TEACHERS ELECTED

School Board Meets In Adjourned Session And Do Lot Of Work.

FIX TAX LEVY FOR YEAR

Fourteen Mills, One Less Than Last Year, Is Decided Upon.

The school board met last night in regular adjourned session and besides other business elected thirty-seven of the forty some teachers needed for the coming term. The tax levy for the year 1908 was fixed at 14 mills, ten for school and four for building. This will make the levy this year just one mill less than last when it was fifteen mills, nine for school and six for building. The treasurer was elected last night, Mr. Ed. Hastings, of the Savings and Trust company being chosen. His bond was accepted. A few bills were paid.

From three applications for High School teacher, S. E. Smith, last year's instructor, was elected. The same salary, $55 a month will be paid. A large number of applications from last year's teachers were read as well as many new ones seeking places in the local schools. Five applications of the former teachers were rejected for various reasons. Those accepted were Misses Bernette McDonough, Jean Whitehead, Mary Thompson, Mary Blankenbuehler, Ida Hugg, Nevada Iams, Ida Gayman, Edith Woodhall, Mary Lewis, Della Martin, Katherine Patterson, Della Swan, Alice Woodward, Clara Cooper, Judith Collins, Ella Greenwood, Nellie Steele, Mrs. Jessie Fonner, Miss Martha Taggart, Iva Beazel, Nellie Hopkins and Elizabeth Elliott. The new ones elected to places in the schools were Misses Harriet Jolliffe and Mary McGee, Charleroi; Guiselda Patterson and Jean Brown, Pittsburg; Mina Houseman, Belle Vernon; Jean Hawthorne, California; Alta Montgomery, Sparta; Clara Moore, Millsboro; Bertha Briese, Morris Township; Grace Iams, Amity; Elizabeth McGee, Harrisville. Alice Staib, Monongahela; Mrs. Dolly Jeffries Brownsville.

The matter of electing a music teacher was not taken up. The salaries of the teachers and grade assignment to teach will be decided upon later. A meeting will be held next Tuesday when it is thought the business will be finished for the month.

PROGRESS IN CATE MURDER TRIAL

The commonwealth yesterday completed the presentation of its case in chief against William L. Cate, the Belle Vernon man charged with the murder of Policeman Thomas Guess. There were few features to the evidence adduced Wednesday, probably the only departure from the first trial being in the calling of former Judge E. H. Reppert to the stand to testify from the notes made at the time as to the evidence given by John Maloney.

BIG OPEN HEARTH MILLS TO RESUME IN FULL JULY 1

Monessen Plant Will Employ Large Force Of Men.

FINE THING FOR TOWN

Developments in the iron and steel industry yesterday indicated that conditions have materially improved along that line within the past few weeks.

First came the announcement that the $4,000,000 plant of the Pittsburg Steel Company at Monessen would be placed in full operation on July 1, giving employment to a large number of men. This plant was to have been completed last fall, but the structural material was not delivered in time.

Following this it was reported the United States Steel Corporation had closed a contract with the Pittsburg Steel company to furnish the latter with 150,000 tons of basic pig iron, to be delivered between July 1 and December 31, of this year. Officials of the former refuse to confirm or deny the report, but independent pig iron interests confirmed the rumor and intimated the deal was closed at an "advantageous price." This means the combine has entered the pig iron field and is cutting prices.

The third surprise came in the announcement by Judge E. H. Gary, chairman of the board of the steel corporation, of a cut in the prices of steel bars, which are used by all manufacturers of agricultural machinery.

The Pittsburg Steel company had a five-year contract with the steel corporation to furnish 100,000 tons of billets yearly. On July 1, last, notice was given that on July 1, of this year, the contract would be abrogated, as the Monessen plant would be in operation by that time and that the company would make its own billets.

It has been known for some time that about 150,000 tons of pig iron would be required by the company for the first six months the new plant is in operation. Independent interests going after the contract, now less than 30 days off, have been informed that the corporation has already closed a deal for that amount.

This is taken to mean that the corporation has decided to operate at least one of its furnaces at Clairton, less than 12 miles from the new plant at Monessen, and will thus be able to cut out the 90 cents per ton which has been charged from the valley furnaces of the independents. No information has been given out as to the price to be paid for the pig iron.

OPERATIONS STARTED IN MANY MINES

Pigeon Creek Valley Is Hive Of Industries, With Large Number At Work.

INDUSTRIES ALONG RIVER

At Hazel Kirk, Dunkirk And Acme Fifteen Hundred Men to Be Employed.

Good news comes from the Pigeon creek valley. All the mines from Dunkirk to Acme resumed in full this morning, after protracted shutdowns, giving employment to almost fifteen hundred men. Orders were issued yesterday by the officials of the Pittsburg and Westmoreland Coal company to begin running coal, and today the various superintendents announced everything in readiness to resume.

The mines affected by this order are Dunkirk, which employs about three hundred men; Hazel Kirk No. 1 which employs 350 men, and No. 3, which employs 250 men, both mines being located at Hazel Kirk; Hazel Kirk No. 2, at Van Voorhis, which employs 250 men., and Acme, near Bentleyville, which employs 250 men.

Of these mines Hazel Kirk No. 3 shutdown last November, and No. 2 has not worked since last January. Mine No. 1 has produced some coal during the winter and spring, but only a few men have been at work. Dunkirk has been idle for some time, while at Acme the production has been at a low ebb.

The resumption of these mines will mean a renewal of the activity in the Pigeon creek valley which made it such an important factor in the industrial affairs of its district, and which promises to continue all through the summer.

Schoenberger Mines, near Monongahela, resumed this morning with a working force of 300 men.

Jones and Laughlin who own Vesta Mine No. 4 are installing an immense haulage engine. The Pittsburg Coal company are adding a large power plant to their system above California.

SABBATH SCHOOL CONVENTION AT MONONGAHELA

Arrangements are being made for the thirteenth annual convention of the Washington county Sabbath school convention, to be held in the Methodist Episcopal church, Monongahela, Thursday and Friday, June 11 and 12. Nothing is being left undone which will make the convention one of the best ever held by the association. The speakers will be of the finest and the music will be of a better grade than at any previous convention. A large number of Sunday school workers from Charleroi will attend.

The lectures will be given on Thursday evening by Rev. J. G. Slater, of Pittsburg, general secretary of the State Association; and Rev. C. L. McKee of Washington. The latter's talk will be illustrated by lantern views. His subject will be "The Land and the Book," portraying the land of Palestine. Friday evening W. G. Landis of Philadelphia and Charles E. Newlin of Indianapolis, Ind., will speak, the former on "Pleasing Personality" and the latter on "The Unconstitutionality of Legalizing Wrong." Mr. Newlin is a platform lecturer of much note and his lecture will prove of much interest to all who hear him.

The music will be in charge of Prof. R. M. Kay of Charleroi, who has gathered a choir of singers from the valley for the special purpose. Besides a choir of older voices a children's choir will be formed.

HUMPHRIES HUMBLED CLARKSBURG

Charleroi Makes It Three out Of Four From Drummers.

FOUR RUNS IN EIGHTH

Inning--Humphries Hit Homer With One Man On.

Charleroi took the lead right at the start of yesterdays contest and the "Drummer" men were never able to overtake it, altough they managed to score five times on eight hits, three errors and two walks. Bert Humphries was working in good form and whenevr things looked dangerous he would tighten up and retire the side in one two three order. Charleroi got to Miller who was working for Clarksburg in several different innings, coupling in the eighth for three singles and a homer.

In the first inning Houser looked them over and walked to the initial corner. Tom Cosgrove bumped it and was safe when Miller made a mess in fielding. Elliott sent both men up a station with a sacrifice and when Dailey landed on the horse hide for a two sacker both men scampered over the gum. In the next inning another was added. Here Humphries walked and Houser sacrificed. Miller didn't like the looks of Cosgrove and sent him on his way with four wide ones. Elliot made the second one down by flying to middle. Dailey received the glad hand when he walked up and as a return compliment put one where they wasn't and Humphries scored. At this stage Miller steadied down and allowed but one more hit until the seventh. Cosgrove got the bingle

VERDICTS GIVEN BY JURIES IN COURT TRIALS

The jury at Washington yesterday awarded George M. Rathmell and William T. Dougherty $805 damages for property appropriated by the Pennsylvania, Monongahela and Southern Railroad company as right of way.

The plaintiffs are the owners of two lots on what is now Mill street, connecting Fredricktown and Millsboro, which are about one mile apart. The railroad company took a strip 50 feet wide through these lots. Viewers were afterward appointed, but the award was not acceptable. The property is claimed to be very valuable on account of its location.

The next case taken up was that of the school district of East Bethlehem township against the same defendant. The facts on which the action in this case is based are about the same as in the preceding case. The trial had only progressed a short way when court adjourned yesterday.

A verdict for $115 in favor of the plaintiff was returned by the jury in the afternoon in the case of J. I. Jones. Both the prosecutor and defendant are farmers, residing in the river district near Monongahela. The action was one to recover damages based on an alleged breach of warranty in the sale of some dairy cows by the defendant to the plaintiff. The cows were alleged and guaranteed to be fresh and in good condition.

The case of the Monongahela City Trust company, receiver for the Robison Machine company, against the Pittsburg-Westmoreland Coal company, is now on trial before Judge Taylor. The action is one to recover money due on goods purchased by the coal company before the machine company went into the hands of a receiver.

J. Boyd Crumrine, attorney for the plaintiff in the suit of the Pittsburg Armature works against Spencer Bros. which was tried in common pleas last week, has filed a motion for a new trial.

In the proceedings of Stockdale borough against the Pennsylvania Railroad company, exceptions to the masters' report have been filed. A grade crossing was petitioned for, but the master found it should not be granted. The master also found that the costs should be paid by petitioners.

PAWVA LEAGUE HAD MEETING LAST NIGHT

Decide That Connellsville--Clarksburg Game Be Played Over.

IMPORTANT BUSINESS

Connellsville baseball magnates threatened to leave the Penna. and W. Va. league after an unanimous decision had been made by the directors of the league to throw out the disputed game with Fairmont at Mud Island June 1, and to play at some future time.

Each team gave their side of the argument and left the room while the directors of the Charleroi, Uniontown and Clarksburg teams settled the dispute. After going over the stories the directors on three ballots decided unanimously that it should be thrown out. The game in question was played last Monday at Connellsville with Andrews, Fairmont man, and Blanchard, a Connellsville player, umpiring. With the score 2-1 in Fairmont's favor Blanchard made two decisions which Mack claimed were bad and a general wrangle ensued. In the midst of the argument, Andrews called the game on account of darkness, and Blanchard forfeited the game to Connellsville, 9-0.

At the suggestion of President James Groninger, the umpire's salary was raised from $100 to $125 per month.

The salary limit was touched lightly, but will still remain at the old mark, and the teams are now required to be within the $1,200 mark. From statements made all are observing the salary law excepting Uniontown, Clarksburg and Fairmont, who will have to cut their pay roll at once.

Meeting Tonight.

The regular semi-monthly meeting of Charleroi Court No. 41, T. B. H. will be held tonight in their hall on Fallowfield avenue between Third and Fourth street. The officers request that all members attend. State Deputy T. H. Russell is expected to be present to take in charge the initiation of a large class of candidates. The Silent Entertainment committee who have in charge the entertainment of our members report at their will without notice, consequently our members who would not miss a rare treat must not fail to attend each and every meeting in order that they may be present when there is something doing.

FORGER IS ARRESTED IN CHARLEROI

California Young Man who Signed Brother's Name To Checks, Apprehended.

INFORMATION BY CASHIER

Held Under Bond Of $500 For Appearance In Court.

Yesterday afternoon Harry G. Paxton, a young man formerly of California, but who for a few weeks has been stopping at the Wilbur Hotel, Charleroi, was arrested on a charge of forgery by Chief of Police Albright and Officer Higgins, on McKean avenue, after he had left the ball park where he witnessed the game. Paxton is charged with having used the name of his brother, Dr C. P. Paxton, of California in checks on the First National Bank, of that place. At a hearing last evening before Squire Hornbake at California he was held for court under $500 bond.

There are eight checks said to have been forged, aggregating a total amount of $234. The last, dated May 29 was for the largest single amount, thirty dollars. The first was written on May 1, but for a small sum. W. S. Nicodemus, cashier of the First National Bank of California, who made information, learned of Paxton's method of gaining money, yesterday morning and sent a message to Detective J. H. Kelly, of the Pinkerton Agency, who is employed by the American Banker's association. Mr. Kelly came to Charleroi about noon yesterday and succeeded in a short time in learning Paxton's whereabouts. He notified the local officers, but kept an eye on the man until arrested.

Paxton is a man between 25 and 30 years of age and married, having a little child. He has been employed with a surveying corps at Monessen for sometime, staying in Charleroi.

CLOSE OF BAPTIST CONVENTION YESTERDAY

New Kensington, Pa., June 4.—Yesterday's program brought to a close the two days' convention of the Pittsburg Baptist Association, in the First church here. Rev. Dr. A. J. Frey of Rochester opened the day's session. Homestead captured the next convention, which will be held June 10 and 11, 1909.

The following pastors of the association were introduced by the moderators yesterday afternoon:—

Rev. A. B. Conrad, Jeannette; Rev. D. P. French, Coraopolis; Rev. Wililam J. McDouall, Oakmont; Rev. Thomas Griffith, Duquesne; Rev. W. S. Carson, Derry; Rev. U. G. Joyce, Butler, Rev. John A. Cherney, Monessen.

John Callahan, aged 17, of Homestead, was drowned on Monday.

Cumberland, Maryland, still retains the favor of eloping parties.

In spite of numerous deaths and equally numerous warnings in the public press, the people continue to sit and sleep upon the railroad tracks, and then be killed.

Train service between Zollarsville and Monongahela will begin July 1.

Mining Bureau.

Senator Huff's Mining Bureau bill died on the session, not because it was unpopular with but because it had a late start and because its author was taken ill during the critical period of its consideration.—Connellsville Courier.

The vigilant Courier overlooks the fact that two days before adjournment, the bill was called up for final passage in the Senate. The new-not-to-do-it rules of that body required unanimous consent. A bourbon crocodile from Alabama, named Clay, who is a manufacturer in a coal mine in Alabama which employs only convicts, raised the most vehement objection, but which was powerless to prevent the passage of the bill then and there.

There never was a more meritorious bill before Congress. Both miner and operator were vitally interested in its passage. Congressman Huff, who represented the operator, worked himself to a frazzle in its behalf. Congressmen Wilson and Nicholls, who are miners, spoke like angels, trumpet-tongued for its adoption. Every human instinct involuntarily arrayed itself on the side of this bill. Miners were not only being killed by tens but by hundreds and hundred at one fell blast and properties are being wrecked and there is a wide diversity of opinion as to the cause. Congressman Huff, aided and assisted by the six hundred thousand miners of the United States asked the government to employ the most scientific men and practical miners to discover the cause or causes so that a remedy could be applied. The cost is trifling for the operators or for any one else.

That these noble things were delayed because of Clay's single objection, not because Col. Huff failed in the least particular.

Not Consistent.

Mrs. Henri Watterson, be of the [illegible] and beldame of deform, emits a [illegible] that bonds the blue, if we may [illegible] his bifurcatin' style, because the [illegible] publicity bill failed to pass. Why did it fail? Simply because [illegible] Democrats in Congress refused to [illegible] representation in Congress and the Electoral College based upon [illegible] number of legal voters in [illegible] Southern States.

[illegible] of rhetoric, no amount of [illegible] can alter that fact for one [illegible]. If the South will persist in disfranchising native American citizens for no other reason than because of their color, than it should take the consequences manfully. The colored men are Americans and from Crispus Attuck in 1773 down to Mingo Sanders in 1898 the negroes have been on every battlefield from Montreal to Manila to help "make and preserve us a Nation"

The Democrats did not want the publicity bill, nor will they pass one one if they should be given the chance to do so, unless they think they can make political capital out of it. It has not escaped public attention that the only States having laws providing for the publication of election expenses are Republican States whic were passed by Republican Governors and enforced by Republican officials.

It's To Laugh.

The Observer is resorting to a trick that was decriped with age when Cadmus was struggling with hireogyphics That is, it is writing letters to itself, signed "Old Subscriber," etc. We confidently expect "Constant Reader," "Vox Populi" and the other Simonts of editorial hallucinations to erupt on "Twenty-two Drug Stores—Their Uplifting Tendencies," Then "Junius" may descant on "The Trolley—Thirst Studios' Scienttfic Scheme." There are possibilities in self-writing systems that would make the Bridgewater Treatise on the Brain read like a language speech of Laura Jean Libbey.

Prehistoric.

The authorities of Washington borough publish the financial statement on telegraph poles. That was the way Noah advertised the flood, so disastrous to all who were too busy to read the notice. It may be that way with the tax-payers unless pre-historic methods are discarded.

What?

Will some person please come forward and show what claim the Washington Observer has upon the Republican party.

In the whole list of our Democratic exchanges there is not one that uses the scurrilous and slanderous language towards the Republican party and its nominees that is used habitually by the Observer.

Cumberland, Md.—Marriage licenses were issued to Francis Caroldoney, Pittsburg, and Hanna Storer, Duquesne, Pa.; Charles Sherer and Celia Burkhart, both of West Newton, Pa.

Washington, Pa.—Washington Borough officials face a $1,000 fine for alleged neglect of duty. A statement of the borough's indebtedness was posted on telegraph poles instead of [illegible] in newspapers and the borough was notified to comply with the law.

Fairmont, W. Va., June 3.—A strange light of great magnitude flashed over the eastern portion of Fairmont at 9 o'clock, tonight, retaining uniform brilliancy for over two minutes. Hundreds of people who were on the streets at the time, believing a gigantic explosion had occurred, rushed to points of vantage to view the sight.

Harrisburg, Pa., June 3.—Local option people today filed in the Dauphin County Court pre-emption of the name "Majority Rule," in eleven districts of the State, and will file similar papers in others. This action is preliminary to the campaign for the election of local option members, and while it does not have the official support of the Anti-Saloon League, its officers are aiding that organizatino in every way. The district for which pre-emptions were filed are: First, Berks County, First, Cambria; Eighth, Allegheny; First, Erie; Second, Montgomery; First, Blair; Clearfield, Elk, all of Washington and Northumberland. Pre-emption was also filed in the Cambria Senatorial district.

Wheeling, W. Va., June 3.—Citizens tonight took preliminary steps toward the organization of a society of business men not engaged in the manufacture or sale of alcoholic drinksto combat the Ant-Saloon League's efforts for the submission of a prohibition amendment in West Virginia next year.

NIGHT WATCHMAN HAS LITTLE SAY

Editor Mail:

Dear Sir:—Since the robbery at Murdock and Davidson's last Sunday morning there has been considerable comment on my ability as night watchman.

I wish to say that the business men who pay me for my service receive protection from me but those who laugh at me and scoff at my work are the ones who get but little if any of my time and attention and as a rule, judging from the past, they are the ones who suffer. About three o'clock on Sunday morning I saw a suspicious character loafing in front of the store where the robbery was committed but not being much interested in the place I said nothing to him and I now believe this man was on the lookout while the robbery was being committed. Had it been at a place where I was interested and getting paid for my service I would have inquired his business and had him to "move on" if his explanation was not satisfactory. I am doing my best to protect the merchants who pay me for and appreciate my work.

Yours truly
Harry Osborne,
Night watchman.

HUMPHRIES HUMBLED CLARKSBURG

(Continued from first page)

when he led off and took second on Elliott's sacrifice. When Dailey went out from shert to first Cosgrove took third and scored on an error by Conway. The inning that broke the Clarksburg boys hearts was the eighth. Nally singled and Willig and May skied to the outfied. then Bert Humphries came along and pounded one to the fence for the circut. Houser then took an excursion and Cosgrove singled. The corners were all occupied when Elliott got souked. Dailey got his third hit and scored Houser and Cosgrove. Elliott tried to go to third but was cut off by a throw from J. Dawson to Miller to McAvoy.

Clarksburg didn't score until the third when a walk a stolen base and a single by McAvoy, gave them one. Their next one came in fourth on an error by short, to infield out and a single by McAlease. In the seventh McAlease singled and F. Dawson sent him over with a three sacker. It loked like a batting rally for the Drummers in the ninth when Drum led off with a single McAlease walked and Miller hit for two bases. Right there Humphries settled down and retired the side in order. Score:

Street Lanterns That Keep Them Vigilant at Night.

"When I visited Mexico," said an artist, "I found innumerable things of interest, but that which gained my notice particularly was the police system. In the City of Mexico the police at night are stationed at short intervals apart in the street. Each policeman has a lantern, which is placed on a stand in the center of the street. It is his duty to remain in easy striking distance of this lantern at all times, so that he will be on hand in case of an emergency.

"Any person who is able to reach the lamp and lift it from its hook before the policeman interferes is entitled to a reward of $500. Any policeman who loses his lantern is subject to instant and dishonorable dismissal. This is to insure constant vigilance on their part and to require their presence at a certain point at all times. At first I regarded the thing as a joke, and I tried to get possession of the police lantern. But then I found that I was greatly mistaken. Not once, although I exercised extreme caution, was I quick enough for the policeman on watch.

"The City of Mexico is one of the best policed communities in the world. [illegible] one requires them, and it is virtually impossible for desperadoes to operate in the open."—New York Telegram.

Mac Jimeson is great, Juvenile Minstrel, Star tonight. 251t

Among the Exchanges

The value of a "cleaning up" day is tersely told by the McKeesport Times:

The Youngh water front certainly looks much better since the city has made some improvements there. Most of the rubbish that disfigured it last summer, and which The Evening Times then urged should be removed, has disappeared, and the ground looks clean and respectable, and a fit place for the people to visit. The walks laid by the city between Fifth and Sixth avenues have also added to its attractiveness, and it is beginning to take on the appearance of a park. The river front is capable of being converted into a very pretty little park and that is what ought to be done with it. As a pleasure spot it will be an advantage to the city instead of the eyesore it has hitherto been.

The Homestead Daily Messenger talks sanely and sensibly when it says:

The June bride will be here in a very few days and with her will come dreams of loveliness upon the part of youth and cogitation of what the bride's capabilities are upon the part of the aged. There are few June brides, or any kind of a bride for that matter, who walks out of an ordinary home into a palace. Such occasions are the exception to the rule. Until every bride can go from an ordinary American home into one where liveried servant awaits her beck and call each should be equipped for the duties of a wife. Each should know how to keep house, to make and mend and bake.

Dunlevy.

The social held Monday night for the benefit of the Dunlevy baseball team was successful they netting over $30. They played their second game Tuesday against a team composed of the combined baseball talent of Speers and Twilight, the score being 6 to 3 in their favor. Copenhaver pitched for the home team and Sunderland, the left-hand twirler from Twilight, for the visitors.

A baby girl arrived on Tuesday at the home of Ralph Lyon, and now Ralph makes his horse travel at a 2.40 gait while his face is adorned with a broad, two-acre smile.

Thomas Robison, who is employed on one of the machines in Vesta mine No. 1, was severely injured Tuesday morning by a fall of slate. Two ribs were broken and his face was badly cut.

TEXAS

Our Next Excursion Leaves Pittsburg in the Evening of June 15. 1908.

The Panhandle of Texas offers the very best inducements of the United States for the man who wishes to establish a good farm as well as for the investor.

This land is unusually fertile, it lies nice and level; no stumps or rocks to clear up, but ready to plow at once on this land you can raise [illegible] as well as with less labor, as on farms in Pennsylvania or West Virginia.

The winters are short, mild and full of sunshine, the most pleasant climate during the entire year of any place in the United States. Plenty of absolutely fresh water.

We are selling this land at $10 to $20 per acre, according to distance from railroads and towns; good terms; you can buy as many acres as you want and make as much or more than the cost of your land in the first year.

Send for our free illustrated booklet; you should investigate this proposition at once by going with us on our next excursion; now is your chance before the land is all sold, as thousands of Northern people have located there, and the prices of land are sure to more than double in the near future; we will pay your expenses of making the trip if we have misrepresented the land.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

Wangles was married recently, and there was a regular hail of rice, confetti and old shoes for good luck as he got into the cab. Moreover, on turning round he was struck above the eye by a friendly shoe with rather a heavy heel.

As the cab immediately drove away no notice was taken of the accident, and, despite the large handkerchief tied by his sobbing bride over his injured optic, the blood still flowed down Wangles' face.

When they arrived at their destination the newly created Benedict went out to a doctor to get the bleeding stopped.

"How did you come by this, my man?"

"Well, you see, doctor—aw—I got married this morning, and"— commenced Wangles, when the doctor broke in:

"What! Has she started already?"—London Answers.

Congressional Bell Signals.

On the floor of the house the doorkeeper has his desk, and it is here that the bells are struck that give notice of the needs of congress. One bell calls for tellers when the house is in committee of the whole; two bells indicate a call for yeas and nays; three declare a recess; with four bells the red light over the door goes out; five bells mean a "call of the house," under which the sergeant at arms is supposed to summarily arrest any member on sight and bring him in, whether on foot or horseback. Any member who is not present at a call of the house is subjected to a severe reprimand. Looking down the corridor, the going out of the red light gives the curious suggestion of the tail end of a passenger train dashing through a tunnel. While the red light burns bright and clear it means that congress is under way, but when the light winks and goes out then the visitors understand that the wheels of legislation have ceased to revolve.—National Magazine.

Countermanded.

A very devout clergyman had just married a couple and, as was his custom, offered a fervent prayer, invoking the divine blessing upon them. As [illegible] overburdened with this world's goods, he prayed, among other things, for their material prosperity and besought the Lord to greatly increase the man's business, laying much stress on this point.

In filling out the blanks it became necessary to ask the man his business, and, to the minister's horror, he said, "I keep a saloon."

In telling the story to his wife afterward the clergyman said that as he wrote down the occupation he whispered:

"Lord, you couldn't answer that prayer!"—Judge's Ledger.

Artificial Limbs.

"A manufacturer or dealer in artificial limbs who wears a cork arm or leg himself is much better equipped for business than his competitors who are sound," said a man who uses a cork leg. "In fact, it has become a sort of unwritten law among us to patronize such men when possible. Sentimental reasons may have something to do with the case, but I guess the chief reason is that we consider that if a man can make a limb for himself that fits like the paper on the wall he can make it for others. Manufacturers of artificial limbs know this, and frequently you will find an armless salesman who [illegible] an artificial limb that just fits. Persons who have trouble getting shoes that are just right are in great luck compared to us."—New York Sun.

An Admiral's Stories.

One of the English admirals has a choice collection of stories at the expense of laymen placed in office at the admiralty as a consequence of a turn of the political wheel. Of one lord of the admiralty he told a delighted house of commons how, receiving a report of disaster to a ship couched in technical phrase, he wrote a reply remonstrating with the officer for his use of bad language. Another civilian lord, looking over a chart and observing that one of his majesty's ships, homeward bound, passed within a space of two inches on the chart an island where castaway sailors were sheltering, wanted to know why it could not call and relieve them. The admiral explained that the two inches on the chart meant a distance at sea of 4,000 miles.—London Strand Magazine.

JUNE ON THE GREAT LAKES

Restful, delightful, interesting and instructive, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip.

For comfort the fine passenger steamships of the Anchor Line have no superiors. As well-appointed as the palatial ocean greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sight of the lakes, and the scenery which frames them.

The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great lock at the Soo, and the passage of the Portage Entry, lake and canal, across the upper end of Michigan are novel and interesting features.

The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days' journey. Leaving Buffalo, the steamships Juniata and Tionesta, make stops at Erie, Cleveland, Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth.

The 1908 season opens on June 16, when the Steamer Tionesta will make her first sailing from Buffalo.

The Anchor Line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America."

An illustrated folder, giving sailing dates of steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back.
